Basics for 2023: This is the third year in which the league is classified at the High-A level of Minor League Baseball. The Midwest League was a Low-A league prior to 2021. The 12-team Midwest League operates with two six-team divisions.

The Midwest League will continue to utilize a Pitch Timer to encourage a quicker pace of play. Pitchers are required to deliver each pitch within a 14-second time limit (or 18 seconds with a runner on base). Defensive positioning rules require at least two infielders on each side of second base, with at least four infielders positioned on the infield dirt. Pitchers are limited in the number of unsuccessful pick-off throws they can make to a base. The third pick-off throw must result in an out, or the runner will be awarded the next base.

Reds #3 prospect (#65 overall) by Baseball America. Reds #4 prospect (#58 overall) by The Athletic.
Rated as Reds organization's "Best Defensive Infielder" by Baseball America.
2023 World Baseball Classic: Played for Team Puerto Rico

Notes: **2022**: Acquired from Seattle along with INF Noelvi Marte, RHP Levi Stoudt and RHP Andrew Moore in exchange for RHP Luis Castillo at the 2022 trade deadline…Selected by Baseball America as a Low-A All-Star (SS)...Played for Seattle's Low-A club, Modesto, prior to being acquired by the Reds and subsequently assigned to Daytona…Entered the season as the third youngest player in the California League...Ranked among offensive leaders at Low-A in hits (137, 1st), triples (10, 2nd), total bases (224, 3rd), runs (92, T4th), RBI (83, 7th), and extra-base hits (49, 7th)…Was rated by Baseball America as the best defensive infielder in the Mariners system. **2021:** Selected by the Mariners in the second round (48th overall) of the First-Year Player Draft. **High School:** Attended Arecibo Baseball Academy in Puerto Rico and Central Pointe Christian Academy in Kissimmee (FL)...can throw with both hands and pitched left-handed as a prep.

From MLB Pipeline: *"(Arroyo) has the chance to be a dynamic up-the-middle player. He swings the bat well from both sides of the plate and was productive each way, showing the ability to make hard contact with a line-drive approach. He's added a good amount of strength to his wiry build already, and that led to more power than anticipated out of the gate, though he's still more of a hit-over-power type. He could become even more of an impact hitter as he tightens up his approach…If he continues to hit at all, Arroyo could be an elite-level player because there's no doubt he's going to be able to play shortstop for a long time. He has excellent hands and actions at the premium position, with more than enough arm to make throws from all over the infield. Assuming he gets his bearings with his new organization, he should continue to prove he has the tools to be an everyday shortstop in the big leagues."*
