### **Future Star Elly De La Cruz with the Dragons**

Dragons fans got a first-hand look at one of the greatest individual seasons in franchise history in 2022 as infielder Elly De La Cruz gained national attention for his achievements with the team. By the end of the calendar year, De La Cruz had a long list of honors and awards based on his season. He was selected as the Reds Minor League Player of the Year, picked as the Midwest League's "Best MLB Prospect," named as one of three finalists by *Baseball America* as the Player of Year for all Minor League Baseball, and chosen as the MWL's all-star shortstop of the year. In a *Baseball America* survey of Midwest League managers, De La Cruz was named the league's "Most Exciting Player," "Best Batting Prospect," "Best Power Prospect," and "Fastest Baserunner."

De La Cruz opened the 2022 season with the Dragons and remained with the club until he was promoted to Double-A Chattanooga on July 22. De La Cruz became the first player in Dragons history to hit at least 20 home runs and steal at least 25 bases while batting at least .300.

Overall this season combining his time in Dayton and Chattanooga, De La Cruz played in 120 games, batting .304 with 28 home runs, 86 runs batted in, 47 stolen bases, and an OPS of .945. He became the first player in Minor League Baseball to hit at least 25 home runs, steal at least 40 bases, and hit at least .300 in a season since George Springer in 2013.

### **Best 50-Game Start in Dragons History**

Over the first two months of the 2022 season, with a roster completely loaded with many of the top prospects in the Cincinnati Reds organization, the Dragons remained at or near the top of the list for most victories in all Minor League Baseball. On June 9, the Dragons record stood at 36-15, marking the best record in franchise history through 51 games (topping the 2007 Dragons, who stood at 33-18). At the time, the Dragons winning percentage of .706 was the second best of the 120 teams in the minor leagues, and they had not lost more than two games in a row since the season began on April 8. Despite a team slump over the final two weeks of the first half that knocked the Dragons out of first place, the team still finished with a first half winning percentage that was second best for any first half in team history, at .591 (record of 39-27), trailing only the 2007 Dragons, who finished 44-26. The 2022 first half record was the fourth best in any half in Dragons history. Circumstances worked against the Dragons, as they became the first Midwest League team since 1992 to post a winning percentage in the first half of .591 or higher but fail to reach the post-season. Exactly 30 years ago, Springfield posted a first half winning percentage of .600 but failed to reach the post-season that year.

### **Home Run Derby**

The Dragons 2022 team was packed with power hitters, and home run balls flew out of Day Air Ballpark at record levels. The Dragons hit 152 home runs in their 128 games, setting a new club record for homers in a season under the guidance of hitting coach Daryle Ward. The club record had been 144 in 2001 in a 139-game season. The Dragons also broke the club record for most home runs at home, blasting 79 at Day Air Ballpark, to break the record of 69 set in 2001 and 2007. For the first time in franchise history, the Dragons had had six players hit at least 10 home runs in a season (Elly De La Cruz, Allan Cerda, Jose Torres, Alex McGarry, Austin Hendrick, Rece Hinds). The Dragons narrowly missed becoming only the second MWL team to lead the league in both home runs and stolen bases in a season since 1988 (Cedar Rapids led in both categories in 2007). The Dragons finished first in the MWL in home runs but finished five stolen bases behind league-leading Peoria (the Dragons played four fewer games than the Chiefs).
