

2023 BUFFALO BISONS SCHOOL KIDS DAY

Dear Principal/Teacher,

Hard to believe it when looking out the window, but baseball season and our annual School Kids Day game are right around the corner!

This year's School Kids Day is **Thursday, June 1st at 11:05 a.m.** The special game time allows for you to get your students back in time for dismissal.

In previous years we have made a School Day Prep Course, a presentation to share with your students to give them all of the information they need before the game, including general info on the game of baseball, the stats that they are seeing on the video board, and some educational slides with a tie-in to our theme for the game. Our theme this year will be a *Bisons STEM* course, centering around the Science, Technology, Engineering, and Math used around the ballpark.

At the end of the presentation is a certificate of completion. If you would like to email me a class picture with your students holding them up, we will put the photos up on the Bisons TV HD Board the day of the game!

We hope that you will be able to join us for another educational and fun School Kids Day. Please feel free to contact me at (716) 846-2032 or solay@bisons.com if you have any questions.

Sincerely,

Shaun O'Lay
School Kids Day Coordinator
