

## THE PROGRAM

Launched as a partnership between Learn Fresh and the MLB Players Trust, MLB Players STEM League is a baseball-inspired program for middle-school age youth. The program brings to life the energy of the sport through a board game and curriculum that cultivate students' math and social-emotional skills. Through partnerships with local schools and community organizations, MLB Players STEM League helps students build confidence and a passion for learning across the U.S., Latin America, and beyond.

## BOARD GAME & CURRICULUM

The MLB Players STEM League board game features the real stats of current MLB stars, including players from every country represented in Major League Baseball. Students compete to solve math problems and score points in a timed setting, while working with arithmetic, decimals, percentages, and fractions. The curriculum is tied to Common Core State Standards and 21st Century Learning Skills, and offers a series of adaptable lessons, allowing students to develop important executive function and social-emotional skills while taking a deeper dive into stats and data analysis in the game.

## GET INVOLVED

Learn Fresh offers MLB Players STEM League training sessions for classroom and out-of-school time educators during MLB Spring Training (February-April), and in June for summer-specific programs. Schools and programs in low-income communities receive access to program materials and educator training at no cost. If you're interested in bringing the MLB Players STEM League featuring Somerset Patriots to your learning environment, we have training sessions available on March 26th at 11am ET and March 26th at 4pm ET. RSVP by clicking on the date/time that works best for you. For additional information about other trainings, please visit [learnfresh.org/programs](https://learnfresh.org/programs).

## EVENTS

MLB Players STEM League features several annual championship events, which are transformative opportunities for students to celebrate and connect with peers in their community. The MLB Players Trust STEM League All-Star Championship will take place in July 2024 in conjunction with MLB All-Star Week in Arlington, TX, drawing students from STEM League programs across the U.S. and Latin America. Other championship events have engaged students in the Caribbean and Colombia in partnership with the Bahamian National Sports Authority, Babe Ruth League, and Project Béisbol.

## KEY STUDENT DATA POINTS

**of partnered programs serve low-income communities**

**increase in key social-emotional skills**

**of educators report improved teamwork**

## PARTNERS

Learn Fresh is changing education through innovative STEM learning experiences built around sports and entertainment. As a nonprofit organization, Learn Fresh is explicitly focused on serving students underrepresented in STEM fields, including girls, students of color, and those living in low-income communities. Students who engage in Learn Fresh programs discover a new way of learning that is fun, highly engaging, and results in academic and social-emotional growth.

The MLB Players Trust – the official charity of the Major League Baseball Players Association – amplifies the positive impact that MLB Players have on the lifelong well-being of others. Through innovative programs and meaningful partnerships, we help create sustainable change throughout the communities where players live, play, and call home. Today, we continue to leverage the joy of baseball and the time, talents, and wisdom of those on and off the field to create positive change.
