

Sacramento River Cats (8-5) at Tacoma Rainiers (5-8)

LHP Kyle Harrison (0-0, 1.13) vs. RHP Emerson Hancock (0-1, 5.40)

GAME 14 | AWAY GAME 11 | SATURDAY, APRIL 11, 2025 | 6:05 P.M. | CHENEY STADIUM | TACOMA, WA

LAST TIME OUT: IF **David Villar** provided much of the offense while the pitching staff stayed strong, leading the **Sacramento River Cats** to a 3-1 victory over Tacoma in game four of their series... Villar closed his night 3-for-5 with all three RBI...IF **Sergio Alcántara** doubled and scored the game's first run in the third, while later IF **Brett Wisely** singled and stole a base to score the final run of the game...RHP **Carson Ragsdale** picked up the win with one run allowed on one hit, striking out five along the way...LHP **Joey Lucchesi** tossed two scoreless innings while RHP **Tristan Beck** worked a spotless eighth, both earning holds...RHP **Justin Garza** converted his third straight save opportunity despite allowing a pair of two-out hits.

TODAY'S STARTER: LHP **Carson Whisenhunt** heads to the hill for game five of the series, coming off is first win of the year last time out when he tossed 6.0 shutout frames with two strikeouts against Las Vegas...Despite taking a loss in his season debut, the southpaw struck out nine without a walk, the most by a River Cat since RHP **Carson Ragsdale** had 11 without a walk on Aug. 10, 2024...The East Carolina product has also yet to issue a walk, and should he go without a walk today, he would be the first River Cats starter to go three or more games without a walk since RHP **Norwith Gudiño** (9.1 ip) and RHP **Luis F. Ortiz** (12.0 ip) each went four starts without a walk.

START ON THE RIGHT FOOT: **Sacramento River Cats starters** have been putting their best foot forward, allowing three runs or less in 12 of 13 games so far this season...Of those 12, five have been scoreless efforts, something that River Cats starters accomplished 31 times in 2024 (20.7 percent)...Their 2.77 ERA (16 er, 52.0 ip) is second in the PCL and sixth in Triple-A, while their opposing batting average of .214 (41-for-192) ranks second in the PCL and seventh in Triple-A...Additionally, their 57 strikeouts are second to Las Vegas (58) in the PCL and is tied for eighth in Triple-A...Sacramento starters have punched out at least five in seven of their 13 games this season.

GOING STREAKING: The **Sacramento River Cats** have won four consecutive games, their longest winning streak since they won five in a row from from July 27-Aug. 1, 2024...In 2024 the River Cats won five consecutive games or more on three occasions, their longest being a six-game stretch which they did twice...The last of which came from June 1-7 with two wins over Tacoma and four against Albuquerque, posting a 1.33 ERA (8 er, 54.0 ip) in that time.

ARE YOU SERIES-OUS?: The **Sacramento River Cats** have already clinched a series victory over Tacoma with two games to play...That will move Sacramento to 2-1-0 (W-L-S) in series this season...The River Cats can sweep the series should they claim both games over the weekend, which would be their first ever six-game sweep of an opponent...Sacramento's last sweep was a three-game set against Albuquerque from July 19-21, 2024.

GOING MCCRAY-ZY: Despite scoring a run in last night's contest, **OF Grant McCray** had his 12-game reached base safely streak snapped...At the time it was not only the longest streak on the River Cats but tied for the longest in Triple-A, recording a .382 on-base percentage in that time.

VAMOS VILLAR: IF **David Villar** had made an immediate impact upon his arrival in the Sacramento lineup on April 2...Villar has logged a hit in eight of his nine games played including a three-hit effort last night, batting .353 (12-for-34) with four runs scored, one homer, five RBI, and five walks...He started the year on a six-game hitting streak, which is tied with IF **Jake Lamb** for the longest such streak on Sacramento in the early season...The South Florida product hit his homer in his third at-bat of the year to bump his Sacramento career homer total to 61...That leaves him two shy of tying **OF Chris Shaw** for second place in the career ranks...Should Villar hit five more home runs in 2025 for the River Cats, he would surpass IF **Chris Carter** (65) for Sacramento's all-time lead...Villar is also inside or knocking on the door of numerous top-10 offensive categories for Sacramento including: games played (274, 9th), at-bats (1,027, 11th), plate appearances (1,221, 10th), runs scored (195, 7th), RBI (215, 6th), and total bases (522, 9th).

FOLLOW THE LEADER: Though there are no **Sacramento River Cats** amongst the Pacific Coast League leaders offensively, numerous Cats appear on the pitching side led by RHP **Carson Seymour** who leads the league in ERA at 0.64 (1 er, 14.0 ip)... His 17 total strikeouts are tied for fourth-most in the PCL, his .184 opposing average is is seventh, and his WHIP of 1.00 is sixth...Trailing shortly behind in ERA is today's starter LHP **Carson Whisenhunt**, who is third with a 1.69 ERA (2 er, 10.2 ip), third in WHIP (0.75), and ninth in opposing average (.184)...RHP **Sean Hjelle** is tied for the league lead in wins (2) along with two others...RHP **Justin Garza** is also tied with two others for the league lead in saves with three.

TROPHY CASE: RHP **Carson Seymour** was tabbed as the Pacific Coast League Pitcher of the Week on Monday, April 7, his first Triple-A career weekly honor...Seymour had just one start but dazzled, punching out five hitters and walking only one with two hits allowed over his five blemish-free frames...He faced a total of 19 batters, just four over the minimum, and three of his five punchouts came with his slider while the other two came on the sinker...It is the second Sacramento weekly honor from the PCL, as IF **Brett Auerbach** was picked as the PCL Player of the Week on March 31 for his performance over the opening weekend...Sacramento is now halfway to the four weekly honors they earned in 2024 when RHP **Mason Black** (4/15/24) and RHP **Tommy Romero** (6/10/24) were PCL Pitchers of the Week while IF **Tyler Fitzgerald** (5/27/24) and OF **Luis Matos** (6/17/24) were PCL Players of the Week.

THIS DAY IN BASEBALL HISTORY

April 12, 1960

With 42,269 fans in attendance, Vice President Richard Nixon throws out the ceremonial first pitch. TheSan Francisco Giants edge the St. Louis Cardinals, 3 – 1, in the first game played at Candlestick Park. Giants pitcher Sam Jones throws a three-hitter, and Cardinals outfielder Leon Wagner hits the first home run in the \$15-million stadium. In the 3rd inning, the umpires protest that the foul poles are several inches in fair territory, rather than on the foul lines; the Giants will make the correction after the season.

ADVANCED PITCHING STATS*	
TBF: Total Batters Faced Total Batters Faced measures the total number of plate appearances hitters have made against him.	
HR/9: Home Run Rate Home Rune Rate measures how many home runs a pitcher averages over nine innings. Of course, not many pitchers throw nine innings all at once anymore, but this is a way of standardizing the statistic so it's on an easy-to-understand scale like many other pitcher statistics which are scaled to 27 outs.	
K% & BB%: Strikeout Rate and Walk Rate Strikeout rate (K%) and walk rate (BB%) measure how often a pitcher walks or strikes out a player per plate appearance. They're measured in percentage form, so it's easy to compare between players and years.	
AVG: Batting Average Batting average is the rate of hits per at bat, calculated as hits/at bats.	
BABIP: Batting Average on Balls In Play Batting Average on Balls In Play (BABIP) measures how often a ball in play goes for a hit. Typically around 30% of all balls in play fall for hits, but there are several variables that can affect BABIP rates for individual players, such as defense, luck, and talent level. Hitters have more control over their BABIP than pitchers do.	
LOB%: Left On Base Percentage Left on Base Percentage (LOB%) measures the percentage of base runners that a pitcher strands on base over the course of a season. This stat does not use the left on base numbers reported in box scores, but instead is calculated using a pitcher's actual hits, walks, and runs allowed results.	
xFIP: Expected Fielding Independent Pitching Fielding Independent Pitching measures what a player's ERA would look like over a given period of time if the pitcher were to have experienced league average results on balls in play and league average timing. xFIP Normalizes a pitcher's home runs allowed based on their fly ball rate rather than simply using the raw number of home runs allowed. (Due to no constant in Minor League Baseball, the xFIP statistic is aproximate)

*ADVANCED HITTING STATS GLOSSARY									
PA: Plate Appearances Plate Appearances are the total number of times a hitter completes a turn batting.									
K% & BB%: Strikeout Rate and Walk Rate Strikeout rate (K%) and walk rate (BB%) measure how often a position player walks or strikes out per plate appearance. They're measured in percentage form, so it's easy to compare between players and years.									
ISO: Isolated Power Isolated Power (ISO) is a measure of a hitter's raw power. Or, to look at it another way, it measures how good a player is at hitting for extra bases. The simplest way to calculate ISO is to subtract a player's Batting Average from their Slugging Percentage, which leaves us with a measure of just a player's extra bases per at bat.									
BABIP: Batting Average on Balls In Play Batting Average on Balls In Play (BABIP) measures how many of a batter's balls in play go for hits. Affected greatly by defense and luck, BABIP can dramatically affect a hit-ter's batting average. If a large number of a batter's balls in play go for hits, that can boost their batting average quite high. Similarly, if a large number of balls in play get caught, it can reduce a player's total offensive value.									
wOBA: Weighted On-Base Average Weighted On-Base Average combines all the different aspects of hitting into one metric, weighting each of them in proportion to their actual run value. While batting average, on-base percentage, and slugging percentage fall short in accuracy and scope, wOBA measures and captures offensive value more accurately and comprehensively. (Due to no constant in minor league baseball, the wOBA statistic is approximate).									
wRC+: Weighted Runs Created Plus Weighted Runs Created Plus measures the total number of runs a player contributes to their team. The formula accounts for a player's ability to get on base, their total number of bases, and their baserunning. The Plus version of the stat is park and league adjusted.
