FAN CUTOUTS PHOTO SUBMISSION GUIDE

CHOOSE YOUR UNIFORM

1. Mets gear is a must!
2. Make sure your shirt/jersey and your background are contrasting colors.
3. If you want to wear a cap, make sure there is a window or source of light in front of your face. Wearing your cap too low will cast a shadow on your eyes.
4. If you wear glasses, try to tilt your head so there is no glare on your glasses. Try not to use the flash when taking the photo.

PICK YOUR BACKGROUND

1. Avoid backlighting – make sure you are not standing in front of a window or light source.
2. Make sure there is no personal or private information that could be captured in the photo.
3. For best results, use a solid color background.

SNAP THE PICTURE

1. Make sure you have good front lighting.
2. If possible, have another person take the photo for you. Selfies will not crop well.
3. Photos from mobile devices will work fine. Submit the photo in the largest possible size.
4. Include some space around your head and shoulders.
5. For best results, stand 3-4 feet from the camera/phone and take the photo at your eye level.
6. Take the photo in a vertical/portrait format from the waist up.
7. If you would like to hold a sign or prop (glove, foam finger, etc.), keep within shoulder distance.

IF YOU ARE UPLOADING A PRE-EXISTING PHOTO OR SCAN OF A PHOTO

1. Preferred file size is 2448 x 3264 at a 72 DPI. The Fan Cutout at full size is approximately 18" x 30". If your file is smaller, keep in mind the image may appear blurry. You can check the file size by right-clicking the photo in your finder window.
2. If there are multiple people in the photo, crop the photo to the person from the waist up you would like to be the Fan Cutout.

The Mets reserve the right to reject any submission for poor quality or inappropriateness. See guidelines. Fans will be notified/refunded if this is the case.
