

BASEBALL FIELD DIMENSIONS

TAKE THE FIELD

DIRECTIONS: Use the diagrams to help answer the following questions.

1. What shape is home plate?
2. Using the dimensions of home plate, what is the perimeter of home plate?
3. What is the distance in feet, a batter will run if he hits a double?
4. If a player hits 1 home run, a triple and strikes out in his other at bat, how many total feet will he run around the bases?
5. If you walked from home plate, down the foul line, to the left field fence, approximately how many inches would you walk? (Hint: 1 foot = 12 inches)
