

Sacramento River Cats (5-5) at Tacoma Rainiers (5-5)
RHP Carson Seymour (0-0, 0.00) vs. RHP Logan Evans (0-1, 6.23)
GAME 11 | AWAY GAME 8 | WEDNESDAY, APRIL 9, 2025 | 6:05 P.M. | CHENEY STADIUM | TACOMA, WA

LAST TIME OUT: The **Sacramento River Cats** scored all six of their runs in one inning, and those six runs were enough to push the River Cats to a 6-1 win over the Tacoma Rainiers in their series opener...Both **OF Grant McCray** and **IF Jake Lamb** had a pair of hits, the latter of which went 2-for-4 with a double and two RBI...**OF Hunter Bishop** also lined an RBI double, while **IF Osleivis Basabe** and McCray eached earned an RBI...**RHP Keaton Winn** earned the start and went 4.2 scoreless frames with five strikeouts and no walks, his longest career Triple-A outing...Earning the win was **RHP Trevor McDonald**, allowing one run on a solo homer in the eighth while punching out five.

TODAY'S STARTER: **RHP Carson Seymour** draws his third start of the season, most recently coming off a 5.0 scoreless inning performance with five strikeouts, an effort that earned him PCL Pitcher of the Week honors...Seymour has been deadly against opposing righties, holding them to just an .056 (1-for-18) average with seven strikeouts...Meanwhile, lefties have found more success and are hitting .267 (4-for-15) with a double and six strikeouts...The Kansas State product has found success early in the count, holding opponents to a 1-for-15 (.067) mark when ahead in the count.

TROPHY CASE: **RHP Carson Seymour** was tabbed as the Pacific Coast League Pitcher of the Week on Monday, April 7, his first Triple-A career weekly honor...Seymour had just one start but dazzled, punching out five hitters and walking only one with two hits allowed over his five blemish-free frames...He faced a total of 19 batters, just four over the minimum, and three of his five punchouts came with his slider while the other two came on the sinker...It is the second Sacramento weekly honor from the PCL, as **IF Brett Auerbach** was picked as the PCL Player of the Week on March 31 for his performance over the opening weekend...Sacramento is now halfway to the four weekly honors they earned in 2024 when **RHP Mason Black** (4/15/24) and **RHP Tommy Romero** (6/10/24) were PCL Pitchers of the Week while **IF Tyler Fitzgerald** (5/27/24) and **OF Luis Matos** (6/17/24) were PCL Players of the Week.

START ON THE RIGHT FOOT: **Sacramento River Cats starters** have been putting their best foot forward, allowing three runs or less in eight of 10 games so far this season...Of those eight, five have been scoreless efforts, something that River Cats starters accomplished 31 times in 2024 (20.7 percent)...Their 2.77 ERA (12 er, 39.0 ip) ranks second in the PCL and sixth in Triple-A, while their opposing batting average of .230 (34-for-148) ranks third in the PCL and 11th in Triple-A...Additionally, their 41 strikeouts are second to Las Vegas (47) in the PCL and is seventh in Triple-A...Sacramento starters have punched out at least five in six of their 10 games this season.

EXCUSE MY ERROR: After playing error-free ball over the first three games of the year, the **Sacramento River Cats** have made at least one error in each of the last seven games (11 total)...This seven-game streak matches their longest from 2024

(once) and 2023 (twice)...If they were to make another error today, it would be their longest streak since they went eight straight games with an error from May 27 through June 4, 2019...This current stretch includes making three errors in game two of the series against Las Vegas, something they did only six times last season when they set a new franchise record for fielding percentage at .842...

VAMOS VILLAR: **IF David Villar** returned to the Sacramento lineup last Wednesday and has made an immediate contribution, going 7-for-20 (.350) with at least one hit in all five games and his first homer of the year in his third trip to the plate...This six-game streak is tied with IF Jake Lamb for the longest on Sacramento in the early season...His first homer of the year gives him 61 homers in his Sacramento career, leaving him two shy of tying **OF Chris Shaw** for second place in the career ranks...Should Villar hit five more home runs in 2025 for the River Cats, he would surpass **IF Chris Carter** (65) for Sacramento's all-time lead...Villar entered the season either in or knocking on the door of numerous top-10 offensive categories for Sacramento including: games played (265, 12th), at-bats (993, 14th), plate appearances (1,182, 10th), runs scored (191, 7th), RBI (210, 6th), and total bases (507, 10th).

I WANNA THROW FAST: **RHP Joel Peguero** threw a pitch at 102.2 mph in Sacramento's game on Sunday, which is the second-fastest recorded pitch at Triple-A this season...It is second to only Luis Mey of Louisville (CIN), who owns four of the top five fastest pitches thus far in 2025.

GOING MCCRAY-ZY: **OF Grant McCray** has reached base safely in all 10 games that he's played in 2025...Though his batting average sits at .282 (11-for-39), his on-base percentage sits at .364 which is tied for the second-highest on Sacramento with at least three games played along with **IF Brett Wisely** (first: **IF David Villar**, .458).

OFF TO SEE THE WHISENHUNT: **LHP Carson Whisenhunt** has started the season off strong, as through his first 10.2 combined innings he has yet to allow a run or issue a walk...That makes him the first Sacramento starter to go two games or more without a walk since **LHP Kyle Harrison** did in a pair of starts on Aug. 10 & 15, 2023...Last season, the East Carolina product's longest scoreless streak spanned three games and 12.2 innings, a streak that started with this same Las Vegas squad and saw Whisenhunt go 8.2 frames without a run against the Aviators...In his season debut on March 30 against Albuquerque he tallied nine punchouts without a walk...Of his nine strikeouts, eight came from his changeup...It marked the seventh time since the start 2021 that a PCL pitcher has tallied eight or more strikeouts with a changeup, three of which belong to Cesar Valdez in the 2022 season...Gavin Stone also accomplished the feat twice (2022, 2023), as has Whisenhunt (also: 9/22/24 vs. SUG)...Additionally, his nine strikeouts without a walk were the most by a River Cat since fellow Carson **RHP Carson Ragsdale** had 11 without a walk against the Albuquerque Isotopes on Aug. 10, 2024.

THIS DAY IN BASEBALL HISTORY

April 9, 1912 & 1913

1912 – In the first game ever played at Fenway Park; the Red Sox beat Harvard, 2-0, in an abbreviated exhibition contest played on a cold and snowy afternoon...1913 – The Brooklyn Dodgers and Philadelphia Phillies play the first game in the history of Ebbets Field. A crowd of 10,000 watches the Phillies win, 1-0.

NUMBER OF THE DAY

.314

The **Sacramento River Cats** have found success from their No. 5 hitters, as the fifth spot in the lineup is batting .314 (11-for-35) with four doubles, one homer, six RBI, and five walks... Just behind that mark is the cleanup spot of the order, batting .308 (12-for-39) with five doubles and three RBI.

ADVANCED PITCHING STATS*	
TBF: Total Batters Faced Total Batters Faced measures the total number of plate appearances hitters have made against him.	
HR/9: Home Run Rate Home Rune Rate measures how many home runs a pitcher averages over nine innings. Of course, not many pitchers throw nine innings all at once anymore, but this is a way of standardizing the statistic so it's on an easy-to-understand scale like many other pitcher statistics which are scaled to 27 outs.	
K% & BB%: Strikeout Rate and Walk Rate Strikeout rate (K%) and walk rate (BB%) measure how often a pitcher walks or strikes out a player per plate appearance. They're measured in percentage form, so it's easy to compare between players and years.	
AVG: Batting Average Batting average is the rate of hits per at bat, calculated as hits/at bats.	
BABIP: Batting Average on Balls In Play Batting Average on Balls In Play (BABIP) measures how often a ball in play goes for a hit. Typically around 30% of all balls in play fall for hits, but there are several variables that can affect BABIP rates for individual players, such as defense, luck, and talent level. Hitters have more control over their BABIP than pitchers do.	
LOB%: Left On Base Percentage Left on Base Percentage (LOB%) measures the percentage of base runners that a pitcher strands on base over the course of a season. This stat does not use the left on base numbers reported in box scores, but instead is calculated using a pitcher's actual hits, walks, and runs allowed results.	
xFIP: Expected Fielding Independent Pitching Fielding Independent Pitching measures what a player's ERA would look like over a given period of time if the pitcher were to have experienced league average results on balls in play and league average timing. xFIP Normalizes a pitcher's home runs allowed based on their fly ball rate rather than simply using the raw number of home runs allowed. (Due to no constant in Minor League Baseball, the xFIP statistic is aproximate)

*ADVANCED HITTING STATS GLOSSARY										
PA: Plate Appearances Plate Appearances are the total number of times a hitter completes a turn batting.										
K% & BB%: Strikeout Rate and Walk Rate Strikeout rate (K%) and walk rate (BB%) measure how often a position player walks or strikes out per plate appearance. They're measured in percentage form, so it's easy to compare between players and years.										
ISO: Isolated Power Isolated Power (ISO) is a measure of a hitter's raw power. Or, to look at it another way, it measures how good a player is at hitting for extra bases. The simplest way to calculate ISO is to subtract a player's Batting Average from their Slugging Percentage, which leaves us with a measure of just a player's extra bases per at bat.										
BABIP: Batting Average on Balls In Play Batting Average on Balls In Play (BABIP) measures how many of a batter's balls in play go for hits. Affected greatly by defense and luck, BABIP can dramatically affect a hit-ter's batting average. If a large number of a batter's balls in play go for hits, that can boost their batting average quite high. Similarly, if a large number of balls in play get caught, it can reduce a player's total offensive value.										
wOBA: Weighted On-Base Average Weighted On-Base Average combines all the different aspects of hitting into one metric, weighting each of them in proportion to their actual run value. While batting average, on-base percentage, and slugging percentage fall short in accuracy and scope, wOBA measures and captures offensive value more accurately and comprehensively. (Due to no constant in minor league baseball, the wOBA statistic is approximate).										
wRC+: Weighted Runs Created Plus Weighted Runs Created Plus measures the total number of runs a player contributes to their team. The formula accounts for a player's ability to get on base, their total number of bases, and their baserunning. The Plus version of the stat is park and league adjusted.
