

GUIDELINES FOR YOUR AUDITION:

- Intro your video with “My name is [Insert Name]” and spell your name.
- Your video should be current. Please record a new audition video rather than submitting a recording of a past performance.
- Your video should not be any longer than 2 minutes.
- Participants should be dressed as if it was a game day and you were performing live on the field. Dress attire is recommended.
- Review your audition video before submitting.

SOLO PERFORMANCES:

- Video Recording Devices (phone, computer, camera) should be in a secure position and should only focus on individuals’ upper body (waist up).
- Your audition needs to be acapella. Audio tracks should not accompany your talent.
- Your audition must be performed without the aid of sheet music.

GROUP PERFORMANCES:

- Video Recording Devices (phone, computer, camera) should be in a secure position and should focus on the entire group.
- Make sure choir conductor does not block view of performers.
- Your audition must be performed without the aid of sheet music.

INSTRUMENTAL PERFORMANCES:

- Video Recording Devices (phone, computer, camera) should be in a secure position and should focus on the entire group including instruments.
- Make sure instrumental conductor does not block view of performers.
- Your audition must be performed without the aid of sheet music.

TIPS FOR YOUR AUDITION:

- While backgrounds are not required for specific set-ups, finding a solid-colored wall in a private area will give you the best focus and sound quality.
- Be mindful of background noises. Avoid any auditory distractions such as animals, kids, traffic, etc.
- Use a naturally lit room with the majority of light on you. Try not to set up your camera with light coming from behind you.
- Practice! Because you are filming at home, you can take as many tries as you would like. Be sure to submit the video that you are most proud of.
