

# BASEBALL MATH PROBLEMS

## TAKE ME OUT TO THE BALLGAME

**DIRECTIONS:** At a Snappers game, you can buy a souvenir, something to eat, and something to drink. Based on the scenario below, calculate how much money you would have left after the game.

On your way to Pohlman Field, you stopped at your local bank to withdraw money from your savings account. You have \$86.00 in your pocket for the Snappers game.

During the 1st inning, you stop by the concession stand to purchase a hot dog and a soda. On your way back to your seat you stop into The Shell Shop to purchase a hat. After the 3rd inning you buy a bag of peanuts and a baseball. During the 7th inning stretch you buy a Soft Serve Ice Cream Helmet. After the Snappers victory you stop back into The Shell Shop to purchase a new Snappers t-shirt.

<u>ITEMS TO BUY</u>	<u>COST</u>	<u>MONEY LEFT</u>
Hot Dog, Soda, Hat	_____	_____
Peanuts, Baseball	_____	_____
Soft Serve Ice Cream Helmet	_____	_____
T-Shirt	_____	_____
