(i) Beer and wine advertising may be permitted on the Network, provided, that the product does not contain more than 24% alcohol by volume. Network may accept malt beverage advertising with appropriate scheduling restrictions, provided the creative is otherwise acceptable and the commercial clearly and conspicuously communicates in audio and/or video that the product is an alcoholic malt beverage. Network may further program or time restrict any such advertising on a case-by case basis.

(ii) Network may accept distilled spirits advertising that contains branding or prominent social responsibility messaging. 25% of each schedule must be used purely for social responsibility messaging.

(iii) Branding messages may include, but are not limited to, the promotion of a distilled

beverage, product or brand.

- (iv) Social responsibility messages may include, but are not limited to, the prevention of drinking and driving, moderation in consumption and references for assistance with drinking-related issues.
- (v) Spots must be pre-approved by Network. Submission of storyboards and/or scripts is strongly advised.
- (vi) Approved distilled spirits advertising is permitted to air on the Network within shows with an acceptable audience composition of viewers who are 21 or older but in no event before 8:00 PM EST. **(b) FDA APPROVED PRESCRIPTION DRUG ADVERTISING STANDARDS:**

Prescription drug advertising may be permitted, provided, that each such advertisement complies with FDA Guidelines. Under the FDA's guidelines, a television commercial for a prescription drug must contain two elements: these are referred to as the "Major Statement" and the "Adequate Provision." The Major Statement includes all of the product's most important risk information (e.g., information relating to side effects and situations where use of the drug may be harmful) in a clear, conspicuous and neutral manner (the FDA believes this information can, in most cases, be communicated in sixty seconds (:60) or less). "Adequate Provision" refers to disclosure of the more detailed information contained on the medicine's labeling. The FDA will now accept dissemination of this information outside the commercial if the following guidelines are followed:

(i) The commercial includes an operating toll-free telephone number which consumers can call for approved package labeling. Upon calling, consumers must be given the choice of having the labeling mailed to them in a timely manner or read to them over the phone.

(ii) The advertiser must provide an alternative means of obtaining this information: for example, stating in the commercial that additional product information is available in concurrently running print advertisements, or making brochures available in publicly accessible sites like doctor's offices, pharmacies, grocery stores and public libraries (this is to reach people who do not have access to the Internet, or who are otherwise unlikely to call a 1-800 number).

(iii) The commercial must contain an Internet web page (URL) address that provides access to package labeling and a statement that pharmacists and/or physicians (or other healthcare providers) may provide additional product information to consumers;

**(c) NON-FDA APPROVED DRUG ADVERTISING STANDARDS:**

Non-FDA approved drugs or supplements advertising will not be permitted unless each such advertisement is submitted to Network in advance for review and approved in writing. All weight loss advertising must conform to FTC guidelines and documentation supporting any and all claims must be provided to Network upon request. Acceptable substantiation is at the discretion of Network;

**(d) M-RATED & A-RATED GAMES ADVERTISING STANDARDS:**

M-rated games advertising will not be permitted unless each such advertisement is submitted to Network prior to airing and Network approves each such advertising in writing. Network will not accept advertising for M-rated video games in any programming that Network reasonably believes attracts younger viewing audiences. Network may further program or time restrict on a case-by case basis. A- Rated games are considered on a case-by-case basis, and plan/schedule as well as commercial must be reviewed and approved by Network prior to consideration for air. E, EC and T- Rated games are all generally acceptable for air anytime subject to Network's review of content;

**(e) ADVERTISING AND PROMOTIONAL TIE-INS WITH LEGALIZED GAMING ENTERPRISES.**

**(i) General Rule:**

Also, advertising from or the establishment of any business relationship(s) with any entity that is owned by, or affiliated with, a company that engages in illegal gambling, including the various websites whose purpose is to teach one to play poker or other casino games with or without monetary gain, is prohibited. Network may program or time restrict any such approved advertisements on a case-by case basis. "SB or PM Advertising" means any advertising that promotes or references (i) sports betting, prediction markets or prediction market brokers or exchanges, including, for the avoidance of doubt, the general branding of a prediction market entity (including advertising that promotes or references betting on any sport or prediction markets placed by or on behalf of a casino that operates a sportsbook or prediction market (e.g., MGM and Harrah's), a fantasy sports company that operates a sportsbook or prediction market (e.g., DraftKings, FanDuel, and PrizePicks), a pure prediction market, broker or exchange (e.g., Polymarket) or a pure sportsbook (e.g., William Hill)), (ii) iGaming products operated by a sports betting operator or prediction market entity or (iii) products that serve as conversion platforms for sports betting or prediction market trading (e.g., daily fantasy or free-to-play contests) that are operated by a sports betting operator or prediction market entity.
